### PROJECTS

#### Blog Management System

- 📅 06/2023 - 08/2023
- I designed a dynamic blog webpage, combining React (frontend) and Django (backend) for seamless user interaction.
  - Developed a responsive React frontend, optimizing the user experience for blog access.
  - Integrated Rapid API for real-time content updates, enhancing user engagement, and external data integration on the blog platform.

#### Portfolio Web Application

- 📅 02/2023 - 04/2023
- I created a portfolio webpage using React, featuring distinct sections for a well-organized presentation.
  - Incorporated interactive components and ensured smooth navigation to enhance the user experience.
  - Demonstrated creativity, meticulous attention to detail, and effective problem-solving skills during the development process.

### INTERNSHIP

#### Web Development Trainee at InternPe

- 📅 08/2023 - 09/2023
- Developed and deployed a fully functional calculator application.
  - I designed and implemented a Spotify clone with Next.js and Tailwind CSS.
  - Contributed to the creation of a responsive e-commerce front-end, enhancing the user experience.
  - Designed and developed a "Connect Four" game, providing an engaging user interface.
  - Leveraged Next.js and Tailwind CSS to craft web solutions for various projects.
