PROJECTS

Notes Web Application

06/2023 - 08/2023

- Developed a notes web application using React for the front-end and Express.js with MongoDB for the back-end, demonstrating proficiency in full-stack development.
- Successfully integrated MongoDB for data storage, ensuring secure and efficient management of user-generated notes.
- Designed an intuitive and responsive user interface, allowing users to create, edit, and manage notes, emphasizing user experience and functionality.

Portfolio Web Application

02/2023 - 04/2023

- I created a portfolio webpage using Next.js, featuring distinct sections for a well-organized presentation and all data are coming from backend MongoDB.
- Incorporated interactive components and ensured smooth navigation to enhance the user experience.
- Demonstrated creativity, meticulous attention to detail, and effective problem-solving skills during the development process.

INTERNSHIP

Web Development Trainee at InternPe

08/2023 - 09/2023

- Developed and deployed a fully functional calculator application.
- I designed and implemented a Spotify clone with Next.js and Tailwind CSS.
- Contributed to the creation of a responsive e-commerce front-end, enhancing the user experience.
- Designed and developed a "Connect Four" game, providing an engaging user interface.
- Leveraged Next.js and Tailwind CSS to craft web solutions for various project.
